

Fall 2024 NEISA TIDE Update
Keller Morrison Brown University class of '25
12/3/2024

Synopsis

This fall TIDE has met bi-weekly to connect ideas between the conference. We have struggled without national leadership, but are working towards strengthening NEISA so it can stand alone. We have projects that we are continuing from last spring to share with the district.

Deliverables

1. We have created a TIDE presentation that includes information from the 2022 ICSA TIDE demographic survey, as well as discussion starters for team building.
 - a. There is an alternative presentation and survey that can be customized to create deeper discussions.
2. We have made a resource guide that can be personalized for each school.
3. We have a bystander resource list that can be sent to the district for use by coaches or TIDE representatives

Goals

We are trying to unify the NEISA conference and get more people involved. We have ongoing projects to create these deliverables:

- Updating of TIDE informational PPT
- Connecting more of NEISA with TIDE
- Guide to making a more competitive team
- Guide to growing a team (adding diversity through recruitment)
- Guide to improving team culture
- Problem-solving how to connect sailors and recruits with existing resources.

If you are a NEISA school and you do not have a TIDE representative please reach out to me at keller_morrison@brown.edu.
