

## 2021 Scheduling Report:

The NEISA Scheduling draft will take place Tuesday 12/14 @ 1600.

The scheduling process has been delayed this year due to the potential changes to Spring & Fall Schedule. Major changes have been tabled, but recommendations are outlined below.

Lots of scheduling changes this year, as many more regattas became Regional or Cross-Regional. There was a learning curve for the amount of berths that other conferences wanted at these regattas. The result was that despite NEISA surrendering berths, we actually reclaimed most of those berths when other conferences did not fill.

There was some confusion this Fall about second teams, the **current** rules are outlined below:

Second teams are allowed at NEISA Regional and Fundamental Regattas, following the below prescriptions.

If B-Level: Host gets first right of refusal, then 2<sup>nd</sup> teams are added in reverse schedule order. Schedule Coordinator & Host must approve second teams.

Hoyt, Hood, Hatch, Regis, Mrs Hurst, Toni D: 2<sup>nd</sup> teams go to host first, then via PR order. If a team adds a second team to one of these events, they move to the end of the PR list for selection of second teams at another one of these events. This includes a host, if they have selected 2<sup>nd</sup> teams at an event that occurs prior to the one the host. These teams may add 2<sup>nd</sup> teams once everyone else has had an opportunity to add 2<sup>nd</sup> teams.

### **Proposed changes:**

Replace "Interconference Regattas shall be limited to one team per school with the exception of one additional all women's team at co-ed Interconference Regattas." 7.7.4

"Fundamental & Regional-level events shall not be limited to one team per school, added through NEISA multiple team rules" 7.7.4

### Time Deadlines:

Prior to the drop deadline, teams may request 2<sup>nd</sup> teams via the above processes, but will be added to the alternate list. **The priority is to add first-teams.**

After the drop deadline, second teams will be added from the alt-list, via the above process. The alt list, as it exists, will be honored.

### 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup> Teams:

Teams may add more than 2 teams, via the above process. However; these teams may be bumped for first-teams OR 2<sup>nd</sup> teams from currently registered teams.
